MAKEOVER MAVENS

THE MISSION

LINDSEY MONTGOMERY was a knockout — young, hip and trendy, living out her twenties in the city and enjoying life to the fullest. She worked as a personal trainer at Superslow Fitness in Bucktown where she helped her clients build a sleek physique. "My motto as a personal trainer was 'When you feel good, you're gonna look good. When you look good, you're gonna feel good,' " she says. "I never dreamed there would come a day when I would look in the mirror and feel like my motto was lost."

But after meeting the love of her life, Lindsey's life drastically changed. She got married, settled down in the suburbs and became pregnant with her first child. Life was good, but had changed so much in less than a year. "I now drive to Wild Oats cautiously with my daughter in back to pick up my CS to peek at her during naptime."

In the midst of juggling everything in her busy life, she discovered she had overlooked taking care of herself. "I stood in the hospital the day after my daughter was born and realized it was going to be a long road back to 'me'."

Lindsey had several goals in mind for how she wanted to look and with the help of the Makeover Mavens team, she was able to achieve them all. "I wanted washboard abs, a beaming smile, a hip haircut and sassy clothes. I wanted it all back, but not just for me. For my daughter and husband, my job, my friends and family, and the future I have to look forward to."

→ IN THE MIDST OF JUGGLING EVERYTHING IN HER BUSY LIFE, SHE DISCOVERED SHE HAD OVERLOOKED TAKING CARE OF HERSELF.

THE TRANSFORMATION

SMILE MAVEN Dr. Jeffrey Weller

Dr. Weller helped Lindsey by adding eight porcelain veneers on her upper teeth and by whitening her lower teeth to create the stunning new look. What were Dr. Weller's goals for Lindsey? "To feel beautiful, confident and sexy; the three emotions every women wants to feel," he said.

BODY + FACE MAVEN Dr. Edward Lack

Dr. Lack performed liposculpture on Lindsey's body and lipo-augmentation on her cheeks. She was familiar with the concept of laser-assisted liposculpture, but was surprised to learn that the fat Dr. Lack removed from other places on her body could be re-implanted into her face to help her regain youthful facial proportions and complement the cosmetic dentistry.

FITNESS MAVEN Greg Hahaj

Greg worked out with Lindsey three times a week for three months to sculpt her new look. He focused on building muscle and lifting weights as opposed to doing cardio. "People teach you how to lose weight, but the intelligent way is to teach them how to build strength," Greg said. Separately, he focused on breaking Lindsey of her sugar addiction to help her move forward with slimming down.

HAIR MAVEN Andreas Zafiriadis

Andreas Zafiriadis and his team at Salon Buzz added some final touches to Lindsey's new look by giving her a chic new cut and color to complement her transformed appearance. He gave her a fresh, bouncy cut and his team of colorists updated her color, adding some face-framing highlights, making her look as renewed as she felt from her complete makeover.

STYLE MAVEN April Francis

April got her hands on Lindsey's closet, going through each item to revitalize her style and they met several times to go shopping for new items to update her wardrobe. She chose pieces for Lindsey's wardrobe based on her body and attitude. "Because Lindsey has a great laugh, great curves, and a gorgeous face, I emphasized her new-and-improved attitude with classic body-conscious clothing and trendy pieces that highlight her playful, athletic nature. Everything we picked was in celebration of her renewed femininity and strength."

BEAUTY MAVEN Fere Shirvani

Fere made Lindsey's eyes pop by using two shades of Estée Lauder's Pure Color Eye Shadow: Honey Drop on her lids and Mink to line her eyes. Then, she added eyeliner and finished off the look with Projectionist High Definition Volume Mascara. "Keeping in mind that Lindsey is a busy working mom, I gave her a more polished and professional look that, most importantly, is easy to achieve in a couple of minutes. It's still Lindsey, but with a new attitude."

- 66 By getting to know Lindsey, I was able to design her teeth to bring out more of her personality strong and confident. She was not happy with her smile, which was a contradiction to her personality. 99 DR. JEFFREY WELLER
- 66 Lindsey is adorable. She always was! The only difference is that the body cover has been enhanced and her self-esteem has been raised. Now Lindsey looks as good as she feels. 22 DR. EDWARD LACK
- 66 I needed two things from Lindsey before I could begin training her. I needed her to have guts and I needed her to listen. And she did. >> GREG HAHAJ
